EDUCATION

Bachelor of Technology,   **2021 – 2025**

VVIT, Guntur, Andhra Pradesh
Information Technology
(till 6th semester)

                                                                                                                            8.18 CGPA

SUMMARY

I am a highly motivated Information Technology student eager to leverage my IT skills in a challenging environment. I am delighted at the prospect of contributing to a company's success and gaining valuable experience to propel my career growth. A quick learner and a team player, I am confident that I can be a valuable asset to your organization.

PROJECTS

Feedback Server System

- The system allows students to quickly provide feedback on both subjects and faculty through a web-based platform.
- It generates automatic reports from the feedback, streamlining the process for administrators.
- Feedback is visible only to authenticated users, with access to results restricted to administrators.

Front End: **HTML, CSS**   Server: **Apache server**

Back End: **Java**   Data Base server: **MySQL**

Personal BLOG

- Design and developed a mini content creation application.

- Created CRUD functionalities for blog posts empowering users to Create new posts, Read blog posts, Update blog posts and Delete posts
